Subject: PH Meeting tomorrow - June 11
Date: 06/10/2008 10:10 AM

Chip, Eric, Jim -

Keith wanted me to remind you that we are scheduled to meet tomorrow afternoon. LWG hopes to discuss EPA's issues on treatment technologies (listed below) and EPA's feedback on the indicator chemical lists for the RI.

In EPA's 5/15/08 responses to LWG's responses on the literature survey of treatment technologies, EPA raised 4 issues for further discussion with LWG: How the Additional Evaluation Treatment Technologies Technical Memorandum (AETT) will 1) further assess the effectiveness of various treatment technologies, 2) incorporate the concept of initial market surveys and regional sediment management programs, 3) how the AETT Technical Memorandum will be incorporated in the overall FS process, and 4) how existing information at various levels of detail (e.g., pilot scale vs. generic) should be consistently evaluated in the FS.

thanks
valerie

Subject: Request for managers meeting to discuss PRG issues

Chip/Eric-

The LWG management team would like to meet at your earliest convenience to discuss the path forward on the PRG development process. Please let Valerie know what dates and times work best for you.

Thanks,

Keith
